Welcome to EnglishConnect This is an online platform designed specifically for English learners. The EnglishConnect program offers three levels of study: Level 1, Level 2, and Level 3. ### Features of the Program - **Personalized Study**: Each level provides personal study lessons tailored to help you prepare for conversation groups. - **Online Lessons**: These are available as part of your personal study package. They're essential for preparing for and participating in conversations with other learners. - **Conversation Groups**: An integral part of EnglishConnect, these groups allow learners to practice their English skills in a supportive environment. ### Levels of Study #### Level 1 - **Daily Practice**: To learn English effectively, develop a habit of practicing every day. This level is designed to help you prepare for the conversation group through personal study and online lessons. - **Access Resources**: Once you've signed in, access your personal study lessons and start practicing daily to improve faster. #### Level 2 - **Daily Habit**: Learning English requires consistent practice. Your personal study will prepare you for the conversation group in this level, making it easier to learn faster through daily practice with online lessons. #### Level 3 - **Advanced Conversation**: For learners who have mastered basic sentences and can hold simple conversations about everyday topics, EnglishConnect 3 offers completely online personal study lessons. - **Preparation for a Degree**: Upon completion of this level, you'll be well-prepared to earn a degree through BYU-Pathway Worldwide.
